

WHAT IS A PHOTO PARTY

A photo party is a relaxing and fun time, when we take professional studio photographs of each individual and groups as requested. The studio sessions allow for plenty of time to experiment with poses, lighting and backgrounds.

It is an affordable way to get professional photographs taken of your children as it is generally very expensive to book a studio session for the family. Doing it this way also allows for your children to take group photographs with their friends – a great way to capture special times with special friends. Using various props and themed ideas you can create a party that will never be forgotten and you will have a great set of photographs to put up in your home.

The parties can be held in various venues.

- * In your own home – we need a dedicated indoor area of a minimum size of 4m x 6m and a power supply. Here we use a mobile studio setup.
- * In our small studio – complete with a changing area and a lounge area. We can currently accommodate a photography party in our studio for up to 8 people.
- * In full professional studio - this studio has a full infinity curve, toilet facilities, a changing area and an area where you can setup for eats and drinks. This studio will enable parties larger than 8 people.

TIPS FOR THE DAY

* BRING YOUR OWN PROPS

Favourite party clothes, musical instruments, microphones, skate boards, sports equipment, hats, crowns and other accessories all make great props. We have a collection of our own colourful props that we use as standard, but using your own really personalizes the experience.

* BRING YOUR OWN MUSIC

Music adds a great atmosphere to any party, so for a photo party it is essential. Please bring your own choice of music to add to the fun.

* WEAR SOMETHING COLOURFUL

Blue denim skirts/trousers with a brightly coloured shirt and all-black outfits work well. We shoot against a white backdrop, so white clothing gets lost and really reduces the impact of the portrait. Please do not wear white if at all possible.

* HAIR AND MAKEUP

We have changing areas and a professional makeup artist available for parties. For family shoots please bring your own makeup and hair products you might want to use to touch up. If you want to hire a professional make-up artist and hair stylist please contact us prior to your shoot.

* SOFTDRINKS AND NIBBLES

We can provide eats and drinks according to your budget including a cake or you can bring your own.

We look forward to hosting your party with a difference – come rain or shine.
